### People vaccinated against the flu last

year by age group, according to CDC

- 18-24 years old: 10%
- 25-34 years old: 12%
- 35-44 years old: 15%
- 45-54 years old: 20%
- 55-64 years old: 25%
- 65-74 years old: 35%
- 75+ years old: 45%

Get vaccinated. Being vaccinated against the flu is your best chance of preventing the illness. The CDC recommends that anyone 6 months and older get a flu shot every year. The flu and COVID-19 vaccines

## Where Are the Germiest Places?

Germes are a part of life and hYmŌY everywhere. The dry air associated with fall and winter also makes it easier for germes to spread and linger in the air. Here are some germ hot spots:

Home Remote controls, kitchen counters, bathroom fixtures , 26i0 (l)5 (ho)-130 (t-6.0 (s)-12.997996 (6)-130m
